# SAYS NEW HOSPITAL WILL NOT SUFFICE.

'The Business Section of Maple President McMath Reports Building Now Planned Far Short of Requirements.

tablishment on Arsenal Street for Chronic and Convalescent Cases.

President McMath, in his report yesterday wood, has announced that he has resigned to the Board of Public Improvements, stated that the new City Hospital building, as described in the ordinance which was recently the position have been current for some time passed authorizing the appropriation of \$258,but yesterday he made the first formal 000 for its construction, when completed will "come far short of providing hospital accommodations that will enable the temporary City Hospital to be vacated."

Appended to Mr. McMath's communication was the report of the Hospital Commission, of which former Councilman Halsey C. Ives was chairman. Mr. McMath indicated that the ideas of the commission, as embodied in its report, were that the building to be erected on the site of the old structure should be used solely as an emergency hospital for the accommodation of acute and accident cases. The object of the commission, according

to Mr. McMath, was to have pavilion wards erected on the south side of Arsenal street convalescent patients. These wards, he says, were to be built at the same time the a representative of the Suburban road, has emergency hospital would be under construction. Mr. McMath's report was approved by the board. "Arrangements should be made," said Mr.

McMath yesterday, after the meeting, "to construct the Arsenal street hospital after the first of the new buildings, as prescribed by the ordinance, is finished and sufficient money has accumulated. I think the new edifice should be complete in itself. With an isolation ward, two stories high, and an octagonal ward, three stories high, 192 patients could be housed. The building would serve well as an emergency hospital,

as intended by the commission. "The old hospital site, on Carroll, Grattan and Fourteenth streets, is not adapted for a complete City Hospital. It is too small for that purpose and somewhat too large for

an emergency hospital, but better suited for the latter than the former."

The ordinance, as passed by the Munici-pal Assembly, contained a clause stating that the new building should be constructed in conformity with the views set forth by the commission, and it is understood that the commission's report was adopted as part of the ordinance.

The report of the Hospital Commission defines the Carroll street hospital as a relief station, with a well-equipped dispensary, where all cases would be first received, excepting contagious and chronic cases. The administration building, on account of the cepting contagious and chronic cases. The structure on Arsenal street would accomtructure on Arsenal street would accom-nodate all patients not included in these

Relatives Will Furnish Skin to Be Used in Attempt to Replace the Missing Tissues Unless Death Results.

Adele Lynch, a young woman, employed in the bindery of Parker Bros., on the tourth floor of a printing-house at Third and Olive streets, was probably fatally injured while at work yesterday afternoon. Her entire scalp, from the nape of the neck to the upper part of the eyelids, was stripped from her head, leaving the skull completely exposed. One ear was torn loose but was stitched back on. The accident was caused by her long hair, which she was wearing down her back, becoming caught around a three-inch iron shaft. She is now at the City Hospital, where, this afternoon, the delicate task of grafting 160 square inches of skin over the wound will be be-

Miss Lynch lives with her mother, a sis ter and a brother at No. 1414 Benton street. She recently graduated from the High School, and had been employed by Parker Bros. for only a few days, Yesterday afternoon her task was to eather up folders from

as he could, and then took her in his buggy to the City Hospital.

Superintendent Nietert of the City Hospit-al said last night that the case was the most remarkable he had ever seen or read of. He feared meningitis on account of the nature of the wound, and the necessarily long exposure of the skuil, and expressed the opinion that the chances for recovery were only about 25 per cent.

The only case which approaches this one n importance and interest to surgeons is that of Ruby Richards, who is still at the City Hospital. August 24 last, while employed in the shroudroom of a coffin fac-tory on Thirteenth street, her hair was caught by a horizontal power shaft, and the scalp, from the nape of the neck to the edge of the hair line in front, was torn loose. In this case, however, the scalp was not taken completely off, as in Miss Lynch's case, nor were the muscles and tis-sues between the skin and the skull torn away, as is the case now. New skin was grafted upon Miss Richards's skull, and grafted upon Miss Richards's skull, and she is now almost entirely recovered.

Miss Lynch's mother, sister and brother, John, called at the City Hospital soon after they heard of the accident, and offered to give the immense amount of skin that will be necessary for the grafting process. Mrs. Lynch said her daughter had never been employed until she was engaged by Parker Bros., and the impression of the family was that she did not work near machinery of any kind.

After the first rush of the morning was over Schiller, who was working in the place of James Crawford. working in the place of James Crawford, was assigned to carry some freight from the fourth floor. The packages were bulky and were too large to be passed through the elevator door. The freight doors, which offer a side exit for freight, were out of order, and Schiller stepped out of the cage and opened the door of the adjoining shart. and opened the door of the adjoining shart. He then stretched out on the floor, with his head and arms extending over the well of the shaft, in order to get a leverage on the freight guards from the other shaft. Meanwhile the elevator in the shaft over which he was extended descended swiftly. It was in charge of Fred Knolle, When hetween the fourth and fifth floors Knolle saw Schiller. He did not have time to stop and the descending cage struck Schiller before it was reversed and shot swiftly upward. There were two passengers in the car, one of whom nearly played the part of a second victim by jumping out through the open door as the car was reversed. The body was removed to the City Dispensary and then to the home of Schiller's widowed mother at No. 2782 South Jefferson avenue.

INQUEST ON CAR'S VICTIM.

Blanche Skeele's Father Testifies That No Gong Rang.

Coroner Lloyd began his inquest yesterday vinto the death of Blanche Skeele, 12 years old, who was killed in the collision between a Southern electric car and a spring wagon at Broadway and Maeder street Sunday night. Several witnesses were heard, and the case was laid over until to-day that other witnesses may be subpensed. George Skeele of No. 614 South Third street, the father of the girl, was the first witness. He said that his wife, two children, Sosthenes Fischesser, Herman Russ-ler and he were driving south in Broadway when the car crashed into the rear of the wagon, upsetting it and throwing all the occupants into the street. Blanche was caught under the car, and had her head almost severed from her body. He said that the motorman did not sound his gong. William H. Lohrum of No. 4606 South Broadway, who was an eye-witness, testified that the car was running at a high rate of speed, probably fifteen miles and hour, the said he heard no gong. Philip Emmert of No. 2529 South Tenth street, who was a of No. 2529 South Tenth street, who was a passenger on the car, said that the car was running very rapfilly, and that no gong sounded. A moment before the collision he overheard the conductor tell the motorman that they were fiften minutes behind time.

Conductor Joseph Weck testified that the car was not running at an excessive rate of speed, and said that the motorman, Hick W. Gliberto, did ring the gong several times. Gliberto did not testify yesterday. After the hearing he was taken to the Four Courts by the police, who are still holding him, pending the jury's finding to-day.
